

KPMG Mobile Workforce Desk

Business Travel & Remote Work Assessments

With business travel & remote working arrangements on the rise, it is vitally important that companies have visibility over their global workforce to manage the related risks and compliance obligations.

KPMG's market leading technology provides a rapid assessment across immigration, income tax, social security and permanent establishment risks.

International work assessments are delivered in real-time providing simple, consistent, cost-effective guidance

01 On-demand

By partnering with KPMG, you get access to our tool and related support as often as you need us without any minimum spend, usage or implementation costs.

02 Speed

Our market leading technology was developed in conjunction with our global network. As a result, our team in Australia can provide assessments in real-time irrespective of the employee's location or time zone.

03 Flexibility

On receipt of your assessment(s), KPMG can provide as much or as little further support as you require. From establishing potential tax exposure through to working with business stakeholders on your remote work strategy, we are here to help.
