KPMG Tax Seminar on the changing tax landscape in Bahrain and the region

On 23 October, KPMG Bahrain's tax team hosted a seminar focusing on the changing tax landscape in Bahrain and the region. Our expert speakers led engaging discussions covering BEPS Pillar 2, e-invoicing, corporate tax and transfer pricing. With more than 200 business leaders and finance professionals attending the session, the seminar provided an indepth discussion on key aspects of the upcoming developments in tax in Bahrain and the region.

Click here to access the materials presented at the seminar.

Whilst the date of implementation of CIT or e-invoicing in Bahrain has not yet been announced, our seminars are intended to provide Bahrain businesses with insights on leading practice. Businesses that act proactively will be better prepared to deal with the challenges of the rapidly evolving tax landscape.

Introduction of Carbon Border Adjustment Mechanism (CBAM) regulation for specified goods

The European Union (EU) has introduced the CBAM regulation which applies to specified imports of goods (identified by their CN code) into the EU within the following 6 emissions-intensive sectors: electricity, iron and steel, cement, aluminum, fertilizers, and hydrogen. The CBAM comes into effect on 1 October 2023 with a transitional period that runs until 31 December 2025, during which the obligations of the EU importer shall be limited to reporting obligations. The first quarterly report is due by 31 January 2024.

Bahrain businesses that are exporting CBAM covered goods to the EU should assess the impact that the CBAM regulations will have on their operations.

For a discussion about how CBAM impacts your business, please contact us.

Kingdom of Saudi Arabia (KSA)
