

KPMG’s global network offers an integrated approach to global development challenges

The world continues to undergo complex change and turbulent transformation. The complexity of global challenges demands innovative thinking and effective cross-sector solutions. **KPMG’s International Development Assistance Services (IDAS), Global Infrastructure, and Climate Change & Sustainability (CC&S)** practices are working closely with public and private sector leaders, as well as civil society, to advance innovative solutions to meet economic growth demands, while building resilience and long-term social, environmental and financial sustainability.

The Challenge

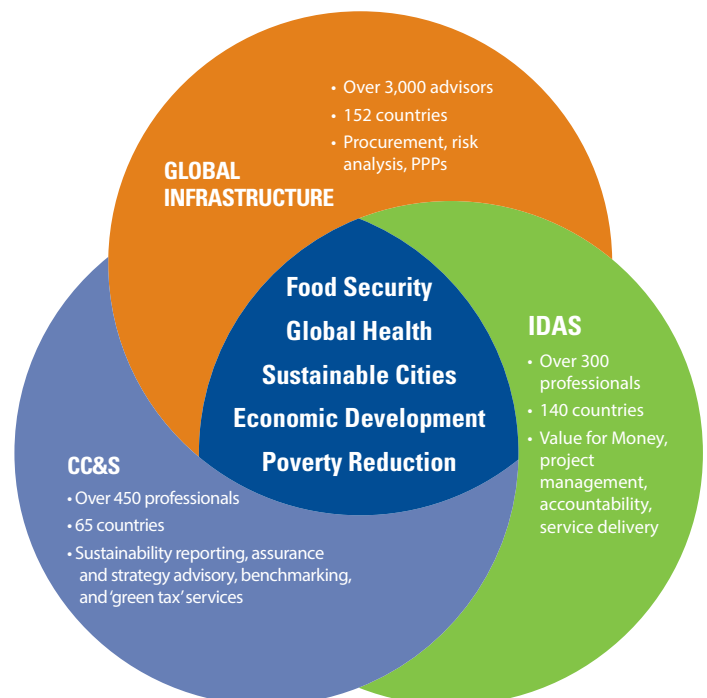

In the 21st century, humanity faces formidable challenges: building robust yet sustainable transport and energy systems; providing access to safe drinking water and sanitation facilities; building productive and healthy cities, and generating innovative frameworks to finance and deliver varied services to citizens – often for the first time. These challenges are particularly pertinent to developing countries. Limited institutional and technological capacity, under-utilised labour forces, strained financial resources, and often underdeveloped financial markets confront leaders across all continents. KPMG member firms are strategically positioned to help tackle these challenges with an advisory lens grounded in development, infrastructure and sustainability principles.

Who We Are

KPMG’s IDAS: KPMG is at the forefront of international development, member firms are engaged as strategic advisors, project implementers, fund managers and independent evaluators. We work closely with emerging market stakeholders in government, civil society, public and private sectors to create sustainable change and support effective, accountable service delivery.

KPMG’s CC&S: KPMG helps organizations respond to global challenges from energy supply to population growth; water scarcity to urbanization, and declining ecosystems to climate change. Member firms work with clients to identify and advise on risks, whether new regulations, physical threats or changing market dynamics. We develop detailed sustainability strategies that are designed to unlock the potential of new opportunities. Our teams are well positioned to help you enhance processes, strengthen reporting, optimize costs, and drive innovation.

KPMG’s Global Infrastructure: By offering leading expertise across the life-cycle of an asset, KPMG’s combination of global insight and local market knowledge help navigate the complexities of major capital projects, helping to reduce risk, support delivery and – ultimately – ensure sustained success. We are positioned to bring our global experience, leading practices and toolkits to help public and private sector clients develop solutions for these global challenges. Our services help to deliver projects on time and on budget.

cutting through complexity

Who We Work With

In 156 countries, including most developing and emerging economies around the world, KPMG’s global network of member firms and regional hubs combine a wealth of experience with hands on local insight, to serve the following organizations:

- Senior level government representatives
- Development assistance recipients
- Non-governmental organisations (NGOs)
- Public charities
- Bilateral and multilateral donors
- Corporations
- Private foundations
- Local communities

What KPMG can Offer

By leveraging extensive global experience, advising business, government and civil society on development policy design, infrastructure, social investment, and natural resource projects, KPMG member firms help clients meet the demands of sustainable economic growth. KPMG uses a collaborative approach to development challenges by drawing upon in-

house skills in corporate finance; public and private sector partnerships; strategy development and implementation; infrastructure asset lifecycle; compliance, fiduciary audits and organizational assessments. We bring relevant KPMG professionals from across our global network together to advise you.
