Connected Healthcare. Delivered.

KPMG Powered Enterprise enabled by Oracle for Healthcare Payer

The agendas of today’s healthcare leaders are full, with priorities to address care delivery model reforms, increase digital enablement, tackle health inequalities, and improve workforce planning and well-being. Key to supporting these priorities is the need for rapid business modernization and new ways of working that deliver insight-led decision-making and risk management.

KPMG: Delivering meaningful transformations

While challenges abound, so does opportunity. Changing member expectations, technology advancements, and cross-functional collaboration offer healthcare payers the chance to succeed with their digital transformation goals.

KPMG Powered Enterprise for Healthcare Payer supports rapid business modernization aimed at driving better functional performance, supporting new ways of working, ensuring processes are future-ready, and better controlling risk and regulation.

Through leading practices and processes on preconfigured market-leading Oracle Cloud technologies, KPMG Powered Enterprise for Healthcare Payer can help organizations rise to the challenges ahead, such as:

- Aligning Human Resources (HR), Finance, and supply chain systems to future-state strategies and target operating models
- Leveraging predictive analytics to better understand members and respond with new offerings
- Getting more value from your data and use it to inform strategies, address inequalities, and improve experiences
- Reshaping your workforce experience and continually drive HR process efficiency
- Derisking business transformation and helping maximize the efficiency and effectiveness of business and information technology operations, including cloud-based solutions
- Proactively managing risks, compliance obligations, and issues facing your organization
- Driving innovative automation and artificial intelligence to enhance experiences for members and optimize processes for employees

200

healthcare CEOs were surveyed from across the world about their ambitions and plans.

97%

agreed that the pandemic had "significantly accelerated" their transformation efforts.

80%

believed that the healthcare industry was in need of disruption and change.

KPMG is a global leader in Oracle Cloud solutions:

7,800+ Oracle consultants

700+ Oracle Cloud projects

350+ Oracle clients

44 Countries with Oracle capabilities

The best part of the project was that it was delivered on time. We move very fast and we had a very tight timeline—and on budget. But I'll be honest, I never had any doubts. KPMG was a great partner. And we got it done on time!"

Cathy Smith, Chief Financial & Administrative Office, Bright Health Group

KPMG has been an award-winning Oracle alliance partner for over 30 years.

Our delivery teams have experience across all Oracle products and modules (ERP, EPM, SCM, HCM, CX, Analytics, OIC, Industry Solutions), including developing unique PaaS solutions and deep experience implementing Oracle Accounting Hub and Subscription Management modules.

Embarking on a cloud transformation journey with KPMG and our alliance partner, Oracle, **delivers value, drives sustainable change, and accelerates innovation**—across the front, middle, and back offices.
