

Identity and Access Governance

**Managing digital identity is at
the center of reducing risk**

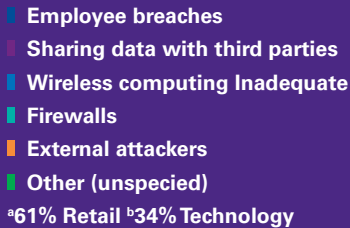

New threats require a new approach

Technology is causing more disruption than ever before, and the rate of change is not slowing down. These trends are introducing new and ever more complex threats and compounding the risk and complexity of managing access across multiple population siloes.

In which of the following areas do you see the greatest vulnerabilities in your organization's data security?

Employees are the weakest link

Questions and survey information come from the **KPMG Consumer Loss Barometer Report**, including 403 corporate executives and 750 consumers

What are your top concerns in a breach?

A single breach can result in intellectual property loss, reputational damage, financial penalties, wasted time, and administrative cost. From the C-suite through the Information Technology (IT) department, managers are expected to protect data and systems from accidental leakage and deliberate cyber attacks.

The risks are costly to both the organization's stature and bottom line

KPMG and SailPoint

Together, KPMG Identity and Access Governance services and SailPoint technology provide a broad business-centric cyber transformation program based on tested identity governance technologies and information security practices to help clients minimize risk, address compliance requirements, enhance user experiences, streamline business processes controls, and strengthen user administration operations.

The KPMG Advantage

KPMG Cyber assists global organizations in transforming their security, privacy, and continuity controls into business-enabling platforms while maintaining the confidentiality, integrity, and availability of critical business functions.

KPMG's Cyber professionals enable clients to effectively manage and control sensitive information assets in the face of a constantly evolving threat landscape and an increasingly challenging regulatory environment.

The KPMG Cyber approach strategically aligns with our clients' business priorities and compliance needs.
