

New insights. New opportunities.

KPMG Powered Enterprise enabled by Oracle for Life Sciences

Life sciences leaders are transforming their business models – breaking down silos, reducing turnaround times, and putting patients at the heart of their operations. Backed by interconnected platform ecosystems, these new business models can digitally transform the entire value chain, so it is future-ready.

KPMG: Delivering meaningful transformations

Life sciences leaders face a myriad of challenges amidst an abundance of change and uncertainty:

- Improving service reliability, operational efficiencies, and data insights
- Becoming consumer-centric
- Driving seamless interactions and commerce
- Digitally enabling the technology infrastructure
- Reducing costs

But given these challenges, opportunities abound to transform business and technology operating models to drive innovation, agility, and enhanced consumer experiences.

With preconfigured Oracle Cloud ERP and SCM technologies, KPMG Powered Enterprise for Life Sciences enables organizations to connect front, middle, and back offices to create new ways of working and ensuring processes and technology are future-ready to take advantage of the opportunities that lie ahead:

- Develop and implement a globally consistent operating model across finance and supply chain
- Create intelligent and agile services, technologies, and platforms, enabling the customer agenda with solutions that are secure, scalable, and cost-effective
- Harness data, advanced analytics, and actionable insights with a real-time understanding of the customer and the business, to shape integrated business decisions
- Operate the business with efficiency and agility to fulfill the customer promise in a consistent and profitable way

KPMG Powered Enterprise for Life Sciences - Assets and Capability Highlights

- Target operating model for life sciences as a model for functional transformation
- Future of Finance blueprint for the life sciences industry
- Preconfigured business and technology accelerators for Oracle Cloud ERP, HCM, and SCM solutions
- Oracle Accounting Hub Cloud business rules to support the data transformation and preprocessing of transactional data and integration capabilities
- Prebuilt integrations to third-party applications and data conversion automations to migrate master data from legacy software
- Intelligent forecasting with the KPMG Signals Repository – an active listening platform that harvests data from public and private sources
