# Navigate uncertainty. Deliver results.

KPMG Powered Enterprise enabled by  
Oracle for Transportation and Logistics

The transportation and logistics industries face a number of challenges – customer expectations, labor supply, regulations, rising costs, to name a few. Organizations that can streamline and simplify their front-, middle-, and back-office functions have an opportunity to thrive amidst uncertainty.

## KPMG: Delivering meaningful transformations

- Enhance customer experiences
- Minimize manual processes
- Centralize and standardize data management
- Mitigate compliance risk, penalties, and fines
- Lower costs, duties, and fees
- Decrease cycle times
- Accelerate order to cash processes
- Lower on-hand inventory requirements

These are just a few of the challenges, and opportunities, facing transportation and logistics companies.

KPMG Powered Enterprise enabled by Oracle for Transportation and Logistics, supports rapid business modernization of Finance, Human Capital, and Supply Chain functions, enabling your organization to proactively address transportation and supply chain management, order management, trade and customs, and taxes and finance.

- Better leverage external signals to improve the quality of the demand signal and forecast accuracy
- Anticipate issues and get early warning to potential problems and demand/supply disconnects
- Use data and advanced scenario modeling to make better, more informed decisions
- Explore scenarios to improve profitability and the economic contribution of every SKU and order
- Simplify, standardize, and optimize financial processes in order to achieve end-to-end automation
- Align and centralize financial reporting to better address regulatory, supply chain, HR, tax, and end-to-end business requirements

# 96%

of C-suite leaders are  
**prioritizing technology  
investment** in the next  
18 months.\*
