

Unlock the potential in procurement

KPMG Powered Enterprise | Procurement enabled by Ivalua

2022

Integrated procurement practices can generate huge value. But achieving it can mean replacing legacy systems and broken processes. For many organizations this can seem a daunting challenge. KPMG Powered Procurement can unlock the transformation of your procurement function. Reaching beyond cost efficiencies, it creates a more agile operation, using cloud technology, mobile functionality and automation.

Choose to extend the role of procurement

Faced with empowered customers, emerging technologies, severe periodic disruption and a battle for skills, CPOs face important questions:

- Can I be a better partner to my business?
- How can we make self-service the norm for users and suppliers?
- How can procurement leverage big data to be intuitive and insightful?
- How can procurement use external insights, tools and technologies to drive better outcomes?
- What is the best way to make change happen smoothly?

KPMG believes that successful procurement functions of the future will combine:

Customer-centric procurement

Insights and analytics

Agile operating model

Digital procurement platform

Workforce of the future

Supplier-centric procurement

Category innovation

Introducing Powered Procurement

Powered Enterprise | Procurement is an outcome-driven business transformation solution that combines deep procurement knowledge, well-established delivery capability and leading technologies to drive sustainable change, rising performance and lasting value.

The Powered Procurement solution provides an out of the box operating model for Source-to-Pay that helps clients transform their S2P process – accelerating delivery and enabling clients to maximize the value of their technology investment.

KPMG professionals understand the human factors involved in business transformation. We can help inspire and empower your people to embrace change, as you align your transformation with industry disruption

A pre-configured cloud solution, embedded with years of KPMG leading practice and enhanced with automation, Powered Procurement can help you to quickly transform and derive value from your move to the cloud.

It's not what you put into the cloud that matters, but what you get out of it

Powered Enterprise | Procurement can help prepare your business for the future:

- A jump start to your digital transformation
- Immediate access to leading practices and processes
- Validated solutions with tried-and-tested real-world usability
- Helping reduce implementation risk and enhance ROI
- High-touch change management and employee experience
- A solid platform for continued evolution and progress

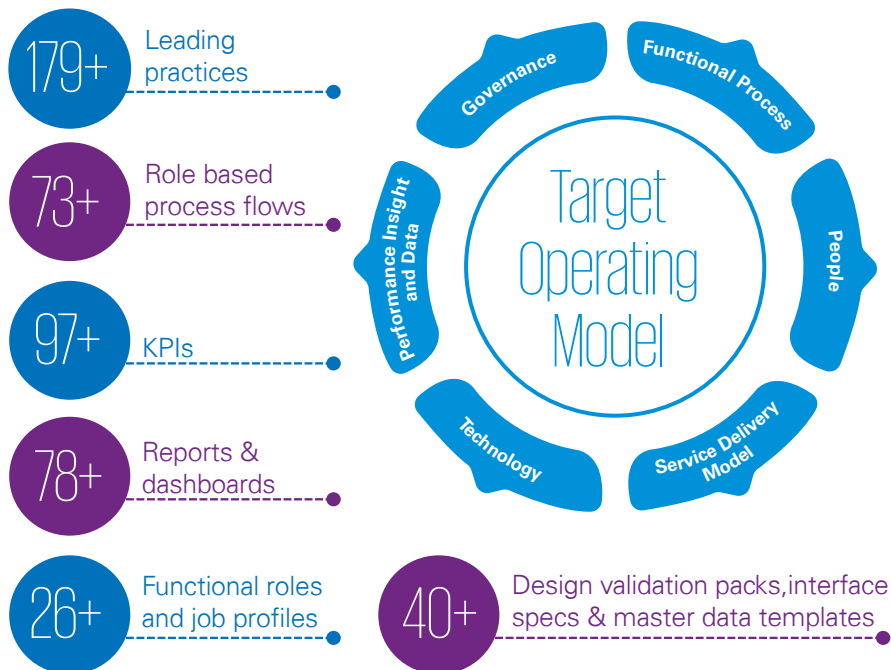

What's in the box?

Powered Procurement provides a combination of leading practices and processes, tested technology solutions and a next-generation delivery framework.

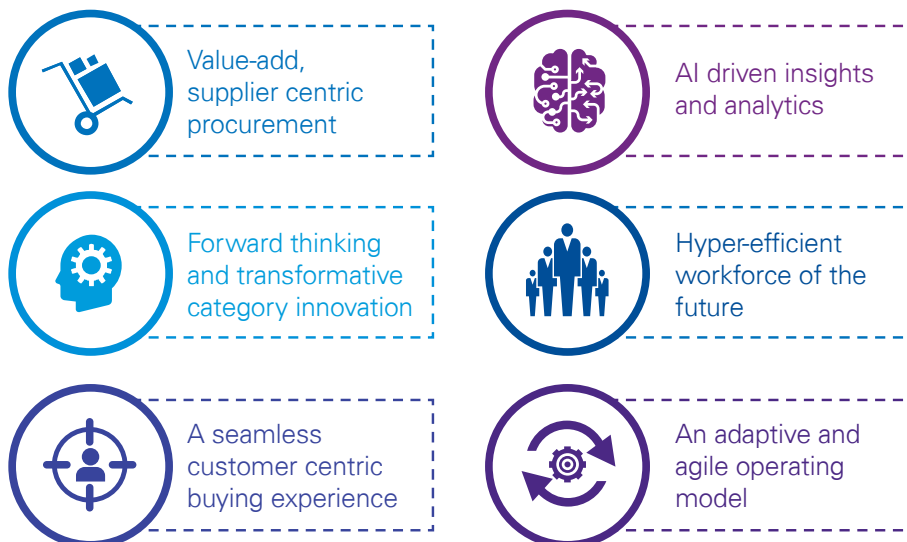

Adapted together with you, the pre-configured approach provides a fast-track towards value creation and benefits realization.

- **KPMG Target Operating Model** shapes how transformation plays through every layer of your organization. It's breadth helps to ensure that the transformation is business and function led, enabled by technology
- **KPMG Powered Execution Suite** is an integrated platform of next generation tools to help deliver functional transformation
- **KPMG Powered Evolution** provides access to specialized resources to drive continuing evolution.

The KPMG Target Operating Model, Ivalua specific assets

Imagine your Procurement function with...

What comes next is powered by KPMG

With KPMG Powered Enterprise | Procurement you can:
