

# Alternative and emerging registered products

## KPMG services

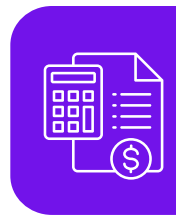

Asset managers are continuing to expand the availability of alternative investments to high-net-worth and retail investors through investment pools and funds registered with the U.S. Securities and Exchange Commission (“SEC”). While private credit has seen significant growth of late, other alternative investments like private equity, infrastructure and fund of funds which invest in these asset classes are increasing in popularity in these registered products.

KPMG LLP is pleased to offer a suite of services and products to help meet the specific needs of this specialized market.

### Launch services

Provide advice on product design, distribution strategy, regulatory and reporting matters prior to registering with SEC

### Accounting and reporting

Assistance with technical accounting and reporting and/or operational support for the accounting function

### Internal controls

Current state assessment and remediation design of key controls and SOX readiness services

### Valuation services

Assessment and enhancement of valuation policies and procedures, as well as ongoing valuation support services

### Tax strategy

Tax structuring, policies and election guidance, investment impact analysis and coordination with non-tax requirements

### Tax compliance

Return preparation and filings, RIC qualification testing, qualifying income exception guidance and shareholder reporting

### Operations and technology

Current / future state assessment and target operating model development, including automation opportunities and advice on service providers

### Compliance and investor relations

Assistance with SEC compliance program and investor relations reporting
