

Expanding capital investments in the US

**A Comprehensive, Strategic Approach
for Business Growth**

In today's rapidly changing policy landscape, driving growth and maintaining competitiveness require a multi-faceted strategy to balance market demand, improve supply chains, and leverage technological advancements. Whether expanding operations, reshoring production, or entering new markets, these strategic considerations are crucial for companies across all industries. Navigating these complex decisions demands a deep understanding of current market dynamics, regulatory environments, and industry trends to ensure alignment with overarching corporate objectives.

KPMG provides thorough support for investment decision-making and execution

KPMG LLP offers a full suite of services designed to guide companies through the investment life-cycle, from strategy, through project stand-up and start of operations. We combine our deep industry knowledge with global insights to help businesses identify opportunities, execute projects efficiently, and achieve project cost savings.

	Strategic Planning and Advisory	Align expansion goals with overall business strategy for sustainable growth.
	Supply Chain Improvement	Analyze and redesign supply chains for resilience and efficiency, whether reshoring activities or improving existing operations.
	Financial Modeling and Investment Analysis	Develop robust models to forecast ROI and support data-driven decision-making for the use of capital.
	Location Analysis and Site Selection	Systematically evaluate potential locations—considering market access, labor dynamics, site due diligence, operational costs, and incentives.
	Tax and Regulatory Compliance	Help ensure compliance and efficiency from a tax perspective in complex local and international environments.
	EHS/ESG Considerations	Integrating environmental, social, and governance factors into the decision-making process to align with societal and environmental goals.
	Project Stand-up and Execution	Finalize agreements with stakeholders, managing construction projects, permitting, and contracts, help minimize risks and delays and achieve timely operational start-up.
	HR Consulting	Navigate the complexities of scaling workforces in new markets to cover talent acquisition and people/retention programs while navigating labor compliance regulations.
