Why TOTEX makes sense for technology, media, and telecommunications

The technology, media, and telecommunications (TMT) sector's rapid technological advancements, intense competition, and evolving consumer demands have led companies to replace their approach to capital expenditure and operational expenditure planning with a more integrated and strategic total expenditure (TOTEX) approach. See how and why.

Create AI value across your workforce

Artificial intelligence (AI) can boost productivity, enhance job satisfaction, and foster a culture of innovation across your workforce. But to reap full value, companies must focus on driving employee engagement, embedding AI into workflows, and redefining roles that are ripe for AI augmentation. Here are the six top ways to do it.
