

Powered Enterprise Process Intelligence

Optimize your organization's potential with Process Intelligence, a holistic enterprise-wide transformation vision—enabled by AI, data, and SAP Signavio

SAP S/4HANA can facilitate significant business improvements but, without the necessary expertise and guidance, a transformation of this size has the potential to be overly complex, expensive, and risky—which can lead to poorer than expected metrics and outcomes.

49%

Organizations have yet to record their transformation requirements

65%

Organizations believe they are expected to do more with less

55%

Businesses don't see improved performance or profitability after digital transformation

44%

Digital transformation don't meet RIO expectations

KPMG is helping businesses to leverage Signavio to unleash the power of SAP S/4HANA—through the core building blocks of Process Intelligence.

How to assess the current landscape, and make **optimal decisions** for long-term transformation

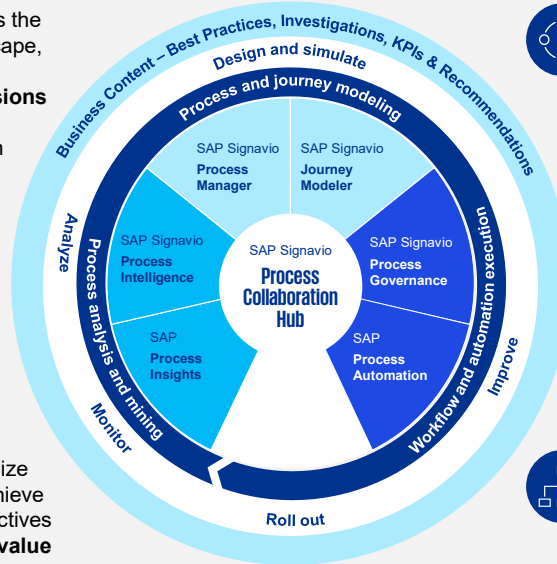

How to capitalize on **data** to achieve business objectives and enhance **value**
