## Singapore: Updated FATCA Record Level Error Codes

On 04 April 2025, the Inland Revenue Authority of Singapore (IRAS) issued an updated version of its FATCA File and Record Level Error Codes document. The updated guide includes the following changes:

- New Error Code 9814 has been added to the FATCA File Level Errors. This error indicates that the submitted AEOI Return does not match the registered Reporting Type of the TDT. To resolve this, the Reporting Financial Institution (RFI) must ensure that the TDT is registered for the Reporting Type that corresponds to the submitted AEOI return.
