Australia: Announced Adoption of FATCA XML Schema v2.0.1

In June 2026, the Australian Taxation Office (ATO) announced the adoption of the Internal Revenue Service's (IRS) new FATCA XML Schema v2.0.1 (found here), while continuing to support the existing v2.0 schema.

The FATCA XML Schema v.2.0.1 revises certain attributes within the existing v2.0 schema to align FATCA reporting with the updated country and currency codes issued by the International Organization for Standardization (ISO).

Reporting Financial Institutions (RFIs) must use the latest FATCA Specifications (found here) for current validation rules.
