# Overview

# Global overview of Public CbyC requirements

## Overview

Legislation passed/approved:

**EU:** Austria, Belgium, Bulgaria, Croatia, Cyprus, Czech Republic, Greece, Denmark, Estonia, Finland, France, Germany, Hungary, Ireland, Italy, Latvia, Lithuania, Luxembourg, Malta, Netherlands, Poland, Portugal, Romania, Slovakia, Slovenia, Spain, and Sweden

**EEA :** Liechtenstein (legislation published, but not effective yet)

**Non-EU:** Australia, Moldova

Legislation pending:

**Non-EU:** Iceland and Norway (EEA Joint Committee decided to incorporate the EU Public CbyC Directive in the EEA Agreement)

# What to keep in mind

## Transposition differences

The Public Country-by-Country (CbyC) Reporting Directive establishes a **minimum standard**, which has resulted in significant differences in national transposition across Member States. As no priority rules or interpretative guidance exist on how the various implementing legislations should interact, non-EU multinational groups must closely monitor deviations from the Directive and assess how these differences should be managed in practice. Differences are caused by:

- Some Member States have expanded the scope of reporting by requiring additional data points;
- The various opt-in clauses that led to inconsistent transposition choices;
- Different size thresholds apply for qualifying subsidiaries and branches, driven by currency translations or options available under the EU Accounting Directive.

**In practice, these differences primarily affect non-EU-headquartered groups, which generally face reporting obligations in each EU Member State where they have a qualifying presence.**

## International developments

In addition to the EU public CbyC rules, several other jurisdictions have introduced **tax-related public disclosure** obligations.

- **Australia:** For financial years starting on or after July 1, 2024, Australia has implemented public CbyC reporting rules that go beyond the scope of the EU regime. Key differences include, among others:
  - The requirement to provide a narrative description of the group's **approach to tax**.
  - The **source of data** required by the Australian rules is the audited consolidated financial statements
  - The CbyC reporting parent is allowed to choose between two reporting approaches, which at the minimum require separate public CbyC reporting for Australia and for a list of specified jurisdictions – which comprises 40 jurisdictions including Singapore, Hong Kong (SAR, China) and Switzerland.
- **US:** On December 14, 2023, the Financial Accounting Standards Board in the US adopted significant changes to income tax disclosure and reconciliation requirements.

## Other EU legislation

In addition to these targeted tax-related disclosures, information on a group's tax position will also be relevant in the context of the **EU Corporate Sustainability Reporting Directive (CSRD)**. Under CSRD, companies operating in the EU need to prepare extensive sustainability reports as part of their management reports. For tax, this will likely represent a step beyond the quantitative data required under EU public CbyC Reporting and towards a focus on qualitative information.

# EU Public CbyC Reporting – Overview (1/3)

01

## What is the status?

### Implementation into national law

All EU Member States have transposed the [EU Public Country-by-Country \(CbyC\) Reporting Directive](#) (Directive) into national law (deadline was June 22, 2023).

### First reporting year

The rules apply 12 months after the transposition deadline, i.e., at the latest from the commencement date of the first financial year starting on or after June 22, 2024.

For calendar year taxpayers, the first reportable year will be 2025, with the report due by the end of 2026. However, several countries opted for shorter reporting deadlines. For example, Spain requires reporting within six months after the end of the financial year for MNEs subject to the local rules. Hungary requires reporting within four to five months after the end of the financial year for Hungarian MNEs.

Some Member States have opted for early adoption of the rules. For example, in Romania the rules apply for financial years starting on or after January 1, 2023, in Croatia the rules apply for financial years starting on or after January 1, 2024, and in Sweden the rules apply for financial years starting on or after June 1, 2024.

02

## What triggers a reporting obligation?

A reporting obligation exists for multinational groups with a consolidated net turnover of at least EUR 750 million in each of the last two consecutive financial years<sup>1</sup>, if the group's ultimate parent undertaking is either:

- Based in the EU, or
- Based in a third-country and operates in the EU through a qualifying subsidiary or branch (of a non-EU head office)<sup>2</sup>.

The disclosure obligation also applies to EU entities that are not part of a group (i.e., standalone undertakings) that meet the size threshold and have a taxable presence from a corporate income tax perspective in at least two Member States.

<sup>1</sup>The financial years to be tested against the threshold are the one for which the report may be due and the preceding financial year.

<sup>2</sup> A qualifying EU presence includes:

- Medium-sized or large subsidiaries that meet two of the following three conditions: i) balance sheet > EUR 5 million, ii) net turnover > EUR 10 million, or iii) average number of employees > 50
- For branches only the net turnover is relevant.

Note that the thresholds may vary by Member State. The thresholds presented in the section [EU public CbyC reporting - implementation details](#) – reflect the thresholds applicable (based to on our knowledge) for 2025. Lower thresholds generally apply for 2023.

# EU Public CbyC Reporting – Overview (2/3)

03

## Who should report?

### EU-headquartered groups

In the case of EU groups, the disclosure obligation rests with the EU parent entity. Reports must be filed in publicly accessible commercial registers in the relevant Member State and published on the applicable group website(s).

### Non-EU headquartered groups

In the case on non-EU groups, the main rule is that each of the qualifying EU subsidiaries or EU branches is required to disclose information for the in-scope group.

There is one exception to this rule – the multiple reporting exemption, whereby the EU subsidiaries and branches of the non-EU headquartered group are exempt from their obligations if the non-EU parent has published the report on their website and has assigned one of the EU subsidiaries or branches to file the report with their national commercial registry. Note that exceptions may apply whereby Member States require separate submission to the national commercial register in all cases.

04

## What should be reported?

The report should cover specified data points for the whole group. The data should be provided on the following **basis**:

- separately for each Member State<sup>1</sup>;
- separately for each jurisdiction included on the EU list of non-cooperative jurisdiction, or on the 'grey list' for two consecutive years;
- aggregated for the rest of the world.

The **report** should include **data** on:

- number of full-time equivalent **employees**;
- net **turnover**, including turnover with related parties;
- **profit/loss** before income tax;
- **income tax** accrued (current year);
- income **tax paid** (cash basis);
- accumulated **earnings**;
- brief description of the nature of the group's **activities**.

<sup>1</sup> Several Member States have expanded the scope of disaggregated reporting to include EEA countries or have implemented their own country lists.

# Public CbyC Reporting – Overview (3/3)

05

## Implementation options?

Member States are provided with choices with respect to:

### Safeguard clause

- Member States can choose to allow in-scope groups to defer the disclosure of commercially sensitive information for a maximum of five years – with the exception of data related to jurisdictions on the EU list of non-cooperative jurisdictions (Annexes I and II). The Directive does not define the circumstances in which this exception can apply.

### Website publication exemption

- Member States may opt to exempt companies from publishing the report on their websites, if the report is already made publicly available to any third party located in the EU, free of charge, on the website of the commercial registry.

06

## Auditor statement

Auditors are required to check and state whether a company falls within scope and whether the report was published. The auditors are not required to provide assurance on the content of the report or its compliance with the Directive.

<sup>1</sup> Under the “safeguard clause” Member States can choose to allow in-scope groups to defer the disclosure of commercially sensitive information for a maximum of five years – with the exception of data related to jurisdictions on the EU list of non-cooperative jurisdictions (Annexes I and II).

<sup>2</sup> Member States may opt to exempt companies from publishing the report on their websites, if the report is already made publicly available to any third party located in the EU, free of charge, on the website of the commercial registry.

<sup>3</sup> Certain Member States also require country-by-country disclosure with respect to the EEA countries (Iceland, Liechtenstein and Norway)

**As a general comment, all thresholds for subsidiaries / branches need to be met for a period of two consecutive years. Local implementation might differ in some cases.**

# EU public CbyC reporting - penalties

# EU Public CbyC Reporting implementation: penalties (1/6)

| Country         | Penalties in case of non-compliance                                                                                                                                                                                                                                                                                    |
|-----------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Austria</b>  | Failure to publish public CbyC reports or submitting them incorrectly or late may result in penalties of up to EUR 10,000. Furthermore, representatives of non-compliant companies could face fines of up to EUR 100,000.                                                                                              |
| <b>Belgium</b>  | Failure to comply with the disclosure requirement will result in fines between EUR 50 and EUR 10,000. Criminal offense for company's representatives in the case of false or misleading CbyC information with fraudulent intent.                                                                                       |
| <b>Bulgaria</b> | Penalties applicable for individuals responsible for failing to submit the report: BGN 1,000 – BGN 3,000 (approximately EUR 1,534). An administrative penalty for the company would also apply, ranging from BGN 2,000 – BGN 15,000 (approximately EUR 7,670). The above penalties can double for repeated violations. |
| <b>Croatia</b>  | Penalties from EUR 1,320 to EUR 13,270 (company), and from EUR 660 to EUR 2,650 (representatives)                                                                                                                                                                                                                      |
| <b>Cyprus</b>   | Administrative penalties depending on the duration of the breach.                                                                                                                                                                                                                                                      |

| <b>Finland</b>        | Failure to comply with the disclosure obligation will result in a fine, the size of which will depend on the nature and extent of the obligation, the financial capacity of the obligated party and any other relevant factors.<br><br>If, despite a request, the income tax report has not been submitted within one year after the end of the financial year, the Finnish Patent and Registration Office must order that the Finnish ultimate parent company or the Finnish subsidiary to be placed into liquidation or removed from the Trade Register / the Finnish branch to be removed from the Trade Register. |
| <b>France</b>         | Any person may request the president of the court ruling in summary proceedings to either order, where applicable under penalty, the person or the body having the power to establish, communicate or transmit the CbyC public report, to communicate such a report; or to designate a representative in charge of proceeding to such a communication.                                                                                                                                                                                                                                                                |

# EU Public CbyC Reporting implementation: penalties (3/6)

| Country | Penalties in case of non-compliance                                                                                                                                                                                                                                                                                                                                                                                                                                           |
|---------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Germany | Failures to comply with the disclosure obligations may be sanctioned with an administrative penalty of up to EUR 250,000.                                                                                                                                                                                                                                                                                                                                                     |
| Greece  | Failure to comply will result in fines between EUR 10,000 and EUR 100,000.                                                                                                                                                                                                                                                                                                                                                                                                    |
| Hungary | The default penalty in Hungary is up to HUF 200,000 (approximately EUR 500) and the Hungarian Tax Authority might suspend the tax ID of the company in case it is not provided later.                                                                                                                                                                                                                                                                                         |
| Ireland | Failure to comply with public CbyC regulations can result in a EUR 5,000 fine or criminal liability.                                                                                                                                                                                                                                                                                                                                                                          |
| Italy   | Administrative penalties are applied to company management who omit to file the report. This sanction ranges from EUR 10,000 to EUR 50,000. This sanction is reduced by half if the report is published within 60 days of the original deadline. On the other hand, the sanction is doubled in cases where the report contains materially false information or omits material facts. Directors are liable to the public authorities involved in the data publication process. |

# EU Public CbyC Reporting implementation: penalties (4/6)

# Public CbyC reporting in EEA jurisdictions / other European countries

# Public CbyC reporting in other EEA jurisdictions and other European countries – Overview

01

## Other EEA jurisdictions - Iceland, Liechtenstein and Norway

### What is the status?

On June 13, 2025, the EEA Joint Committee adopted a [Decision](#) to incorporate the EU Public CbyC Reporting Directive into the EEA Agreement<sup>1</sup>. The Decision largely follows the Directive and will require each EEA country (Iceland, Liechtenstein and Norway) to implement and apply the public CbyC reporting rules (with the adaptations outlined in the Decision).

In terms of next steps, the entry into force of the Decision is pending fulfilment of constitutional requirements by Iceland, Liechtenstein and/or Norway.

### First reporting year

Unclear at this stage.

<sup>1</sup>The EEA Agreement creates a single market that allows for the free movement of people, goods, services, and capital among its member states, which include EU countries and three EFTA states: Iceland, Liechtenstein, and Norway.

02

## Other European countries – Moldova

### What is the status?

Moldova introduced public CbyC rules in their local legislation that are aligned, to a certain extent, with the EU Public CbyC Reporting Directive.

MNEs in scope of the Moldavian rules are groups with a total consolidated revenue exceeding MDL 1.58 billion (approx. EUR 816 million) for two consecutive years.

MNEs that are headquartered outside Moldova and that meet this threshold, will be subject to the rules if they have medium / large subsidiary<sup>1</sup> or branches of a certain size operating in Moldova.

### First reporting year

Financial years starting on or after January 1, 2025.

<sup>1</sup> Medium-sized or large companies are defined as entities that meet two of the following three conditions: i) total assets > MDL 63,600,000 (approx. EUR 3,3 million); ii) sales revenue > MDL 127,200,000 (approx. EUR 6,6 million), or iii) average number of employees > 50

| <p><b>Tax alert</b></p> <p><b>Moldova</b><br/><a href="#">Adopted</a></p>                    | Jan 1, 2025                       | n/a                           | n/a                                        | Extension to all jurisdictions in which the group operates. | Romanian | <ul style="list-style-type: none"> <li>From 20 to 40 conventional units<sup>4</sup> applied to the responsible person;</li> <li>from 50 to 70 conventional units<sup>4</sup> applied to the legal entity</li> </ul> | CbyC disclosure required for all jurisdictions in which the group operates.                                                                                                                            |

<sup>1</sup> Under the “safeguard clause” Member States can choose to allow in-scope groups to defer the disclosure of commercially sensitive information for a maximum of five years – with the exception of data related to jurisdictions on the EU list of non-cooperative jurisdictions (Annexes I and II).

<sup>2</sup> Member States may opt to exempt companies from publishing the report on their websites, if the report is already made publicly available to any third party located in the EU, free of charge, on the website of the commercial registry.

<sup>3</sup> EEA countries: Iceland, Liechtenstein and Norway

<sup>4</sup> One conventional unit is the equivalent of MLD 50 (approx. EUR 2.5).

01

## What is the status?

On December 10, 2024, Australia enacted public CbyC rules for multinational enterprises. The public disclosures required under the Australian rules are more extensive than the EU reporting requirements and include certain qualitative disclosures.

### Relationship with other CbyC reporting initiatives

The proposed rules draw broadly on the narrative and quantitative reporting aspects of GRI 207<sup>1</sup> and non-public CbyC reporting.

### First reporting year

The rules apply for reporting periods that start on or after July 1, 2024. The report is due within 12 months after the end of the reporting period.

02

## Who has to report?

The Australian public reporting rules apply to a ‘CbyC reporting’ parent (either an Australian or a foreign headquartered entity that meets certain criteria) where global revenues are AUD 1 billion or more.

For example, the UPE of a non-Australian MNE would have a reporting obligation in Australia if the annual global revenue of the group exceeds AUD 1 billion (approx. EUR 558 million as July 2025 update).

It’s important to note the AUD 1 billion threshold needs to be assessed for each reporting period, and take into account foreign exchange (reporting currency versus AUD) movements in making this assessment.

A de minimis threshold is available, i.e., a CbyC reporting parent would only subject to the reporting obligation if AUD 10 million (approx. EUR 5,6 million) or more of its aggregated turnover (i.e., global income) for the relevant year is Australian-sourced income.

<sup>1</sup> Note: Global Reporting Initiatives’(GRI) Sustainability Reporting Standard 207. For more details on the Australian public CbyC reporting please refer to the [dedicated alert](#).

# Australian Public CbyC Reporting – Overview (2/2)

03

## What should be reported?

The report required in Australia should cover specified data for the **whole group**.

Regarding country-by-country data, in-scope MNEs are allowed to choose between two options, as follows:

### ***Option 1: minimum compliance standard***

- disclose separately for Australia and specified jurisdictions. The list of specified jurisdictions is largely consistent with the jurisdictions listed for separate disclosure in Australia's International Dealings Schedule but excludes the EU countries on that list (for more details please refer to page 9 of KPMG's Australia [tax alert](#))
- aggregated for the rest of the world.

### ***Option 2: disaggregated data***

- disaggregated tax information for each jurisdiction in which the group operates.

The report should include CbyC data, as listed below, as well as a description of the MNE's 'approach to tax'.

- names of entities in the CbyC reporting group;
- description of main business activities;
- revenue from third parties;
- revenue from related parties;
- profit/loss before tax;
- income tax paid (cash basis);
- income tax accrued (current year);
- tangible assets other than cash and cash equivalents;
- book value of tangible assets at the end of the income year
- number of employees
- reasons for difference between CIT accrued on profit/loss and tax due if the statutory rate is applied to profit/loss
- currency used in calculating and presenting the quantitative information.

# Australian Public CbyC Reporting – at a glance

| Application date                                                                                                                                                                                                                                                                                                                             | Publication deadline after end FY | Qualifying presence subsidiaries                                               | Safeguard clause                                                                            | Language | Penalties in case of non-compliance                                     | Highlights                                                                                                             |
|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|-----------------------------------|--------------------------------------------------------------------------------|---------------------------------------------------------------------------------------------|----------|-------------------------------------------------------------------------|------------------------------------------------------------------------------------------------------------------------|
